

In response to educational challenges posed due to the COVID-19 pandemic, FAME is pleased to partner with Online Testing Group to offer FREE online theory testing to all new users from now through June 30th.

Paper and pencil testing will be challenging to offer with online courses and social distancing being a part of the new routine, but this NACCAS approved method will remove that concern.

Online Testing Group testing features:

- easy to use
- input your own test questions (true/false, multiple choice, or even image-based questions)
- prevents cheating with randomization and timed testing (lucky for you, the safety features are numerous and far too detailed to describe in a bullet)
- full-featured reporting giving students and administrators immediate access to results, with a plethora of reporting tools for the educators
- \*Timed Test---you set the time you want to allot
- \*Immediate Grading—both the school and the student will be notified

Some clients currently using Online Testing Group (ULTA, numerous Paul Mitchell Schools, Tennessee School of Beauty; Roanoke City School Systems; TN School of Therapeutic Massage)

After June 30, the testing can be kept for only \$99/month, allowing for a savings over the time and materials needed for paper testing.
